

CLIENTS SPEAK: UNCOVERING THE IMPACT OF INFOSYS CYBERSECURITY SERVICES

Infosys strengthened the overall security posture and improved network and cloud security for **MS Amlin** by diligently assessing vulnerabilities and threats in their environment, and also evaluating the effectiveness of their existing security measures.

Infosys Secures MS Amlin's digital transformation journey

MS Amlin is a leading insurer based out of Europe and a key client of Infosys. Infosys has significantly improved MS Amlin's network security and strengthened their security posture by conducting round the clock vulnerability assessment, effectively managing risks, and facilitating secure network operations.

Andy Hodgson, CISO - MS Amlin in this video testimonial affirms that Infosys has played a pivotal role in securing their digital transformation journey. "I love Infosys as a company. They have great values. They are humble and get the fact that 'People do business with people' - said Andy.

Infosys improved **bpost's** security posture while migrating them to the cloud by leveraging Managed Protection, Detection and Response offering.

Infosys provides Managed Protection, Detection and Response to bpost (Belgian Post Group)

"Looking back I can only say that realization of this project was a real success and thanks to the infosys team."

— **Rony Monnaie**, CISO, bpost

Infosys elevated the security posture and assured a safe digital environment to **Backcountry** by leveraging Infosys Cyber Next platform.

Backcountry Taps Infosys and Google Cloud to Create Seamless, Secure Digital Experience for Outdoor Enthusiasts

Solutions from Infosys Cobalt and Cyber Next platform drive transformation while enhancing retailer's security framework
New York - May 23, 2022

Infosys (NYSE:INFY), a global leader in next-generation digital services and consulting, today announced it has been selected by **Backcountry**, a premier online retailer of outdoor gear and apparel, to deliver a seamless and secure digital experience making it even easier for customers to pursue their outdoor passions. Backcountry also uses Google Cloud to fuel its data-driven transformation and help optimize business outcomes with analytics and real-time insights. As the spring and summer seasons ramp up and more consumers embrace outdoor activities, Backcountry will be prepared for a surge of activity with its agile, cloud-driven business model and ability to identify security risks proactively - preventing any disruption to operations and strengthening protection of customer data.

"Infosys offers the necessary skills and resources to deliver a secure and seamless customer experience, virtually or in-person, which is why our collaboration is proving to be so powerful."

— **Vismay Thakkar**, VP of Technology, Backcountry

Infosys streamlined **Equatex's** Identity and Access Management processes with enhanced security and productivity.

Infosys Transforms Equatex's Identity Access Management for Stronger Security and Enhanced User Convenience

In the post-pandemic world with remote working and the proliferation of smart devices, identity and access management (IAM) has become increasingly critical and challenging. This is especially true for enterprises handling sensitive data, as in the case of Equatex, a global financial service provider. Equatex was grappling with multiple challenges owing to its legacy system. IDAM entails secure management of digital identities, authentication of users, and authorization of access to resources. With SailPoint IdentityIQ, Infosys streamlined Equatex's identity and access management processes by enhancing security and productivity while reducing effort for access provisioning.

"This was one of the smoothest projects at Equatex, completely managed by Infosys. A big shout-out to the Infosys team who implemented the solution and brought it to life."

— **Martin Wuethrich**, CTO, Equatex
